Grade 3 Mathematics Unit 11: Measurement
Unit 11 Concept Check

Name: _____ Date: _____

Lessons 3.11.01–3.11.04 — Show all your thinking.

1. Convert 3 m to centimeters. Then convert 450 cm to meters and centimeters.

2. $2\text{ m} - 65\text{ cm} = \underline{\hspace{1cm}}$. Show every step.

3. Convert 2 km to meters. Then convert 1,800 m to kilometers and meters.

4. $3\text{ km} - 700\text{ m} = \underline{\hspace{1cm}}$. Express your answer in km and m.

5. Which is longer: 1 km 500 m or 1,450 m? Show how you compared them.

6. Felix has a 2 m board. He cuts off 75 cm, then 40 cm more. How much is left? Show all steps.
