

Independent Practice: Using a Compass

3.12.07 | MA.3.GR.1.1, MA.3.GR.1.3

Student Name: _____ Date: _____

1. You set a compass to 4 cm. What is the diameter of the circle you will draw?
2. You need a circle with a diameter of 10 cm. What radius do you set on the compass?
3. You draw a circle with a radius of 6 cm. What is the diameter?
4. A circle drawn by a compass has a diameter of 14 cm. What was the radius setting?
5. Two circles share the same center (shown below). The inner circle has a radius of 2 cm. The outer circle has a radius of 5 cm. What are their diameters?

Inner diameter: _____

Outer diameter: _____

6. Why does a compass draw a perfect circle? Explain in your own words.
7. Felix opens his compass wider. What happens to the circle he draws? Explain.

Independent Practice: Using a Compass

3.12.07 | MA.3.GR.1.1, MA.3.GR.1.3

Student Name: _____

Date: _____

- 8.** You need to draw two circles — one with a diameter of 8 cm and one with a diameter of 12 cm. What radius setting do you use for each?

Circle 1 (diameter 8 cm): radius = _____ cm

Circle 2 (diameter 12 cm): radius = _____ cm
