

## Picture Graphs and Bar Graphs

Name: \_\_\_\_\_

Date: \_\_\_\_\_

### INDEPENDENT PRACTICE SHOW YOUR THINKING

1

A class voted on favorite snacks: Apples 4, Pretzels 6, Cheese 3, Yogurt 2. Sketch a bar graph (one cube per vote). Which snack got the most votes?

---

---

---

---

---

---

2

Using the same survey: how many more chose Pretzels than Yogurt?

---

---

---

---

---

3

Using the same survey: how many students voted in total?

---

---

---

---

---

4

A picture graph shows 5 cats and 3 dogs. How many more cats than dogs?

---

---

---

---

---

## Picture Graphs and Bar Graphs (continued)

5

Felix made a bar graph and said the tallest bar means "fewest". Is Felix right? Fix the mistake.

---

---

---

---

---

6

Reflection: why is a bar graph easier to read than a list of tally marks?

---

---

---

---

---
