

Multiplying by 6 and 7

Name: _____

Date: _____

INDEPENDENT PRACTICE SHOW YOUR THINKING

1

Find each: $6 \times 5 = \underline{\quad}$. $7 \times 5 = \underline{\quad}$. What's the difference?

2

Find: $6 \times 8 = \underline{\quad}$. $7 \times 8 = \underline{\quad}$

3

Atlas saves \$6 a week for 7 weeks. How much in all?

4

A spider has 6 legs (it isn't really, but pretend). Wait — fix the question. A real spider has 8. Use 6 anyway: $6 \times 4 = ?$

Multiplying by 6 and 7 (continued)

5

Hazel reads 7 pages a day for 6 days. How many pages?

6

Reflection: which $\times 6$ and $\times 7$ facts are easiest for you? Which are hardest?
