

Dividing by 6 and 7

Name: _____

Date: _____

INDEPENDENT PRACTICE SHOW YOUR THINKING

1

Find: $42 \div 6 = \underline{\quad}$ · $49 \div 7 = \underline{\quad}$ · $54 \div 6 = \underline{\quad}$ · $70 \div 7 = \underline{\quad}$

2

Find: $36 \div 6 = \underline{\quad}$ · $63 \div 7 = \underline{\quad}$

3

Felix has 42 stickers. He gives 7 to each friend. How many friends get stickers?

4

Atlas has 48 marbles. He puts them in 6 bags equally. How many in each bag?

Dividing by 6 and 7 (continued)

5

Write the multiplication fact related to $56 \div 7 = \underline{\quad}$.

6

Reflection: how does knowing $7 \times 8 = 56$ help you find $56 \div 7$?
