

Multiplying by 8 and 9

Name: _____

Date: _____

INDEPENDENT PRACTICE SHOW YOUR THINKING

1

Find each: $8 \times 5 = \underline{\quad}$. $9 \times 5 = \underline{\quad}$. What's the difference?

2

Find: $8 \times 7 = \underline{\quad}$. $9 \times 7 = \underline{\quad}$

3

Felix has 8 books on each shelf, and there are 7 shelves. How many books total?

4

A class has 9 students. There are 8 classes. How many students in all?

Multiplying by 8 and 9 (continued)

5

Atlas says $9 \times 6 = 54$ and $8 \times 7 = 56$. Check both — fix any wrong ones.

6

Unit reflection: which factor (6, 7, 8, or 9) was hardest to memorize? Which trick or pattern helped most?
