

Fractions on a Number Line

Name: _____

Date: _____

INDEPENDENT PRACTICE SHOW YOUR THINKING**1**

Draw a number line from 0 to 1. Cut it into 4 equal parts. Mark where one-fourth lives. Label it.

2

Draw a number line from 0 to 1, cut into 8 equal parts. Mark and label where five-eighths lives.

3

On a number line from 0 to 1 cut into thirds, where would two-thirds be? Sketch and label.

4

Cora marked one-half on a number line, but she put it closer to 1 than to 0. Is she right? Fix the mistake.

Fractions on a Number Line (continued)

5

Sketch a number line from 0 to 1 in sixths. Mark and label both two-sixths and four-sixths. Which is closer to 1?

6

Why does the same fraction (like three-fourths) land in the same spot every time, no matter who draws it?

7

Reflection: how is a fraction strip like a number line?
