

Unit 9 Summative Assessment

Name: _____

Date: _____

Show all your thinking. Sketch strips or number lines if it helps.

1

A strip is cut into 10 equal parts. 7 are shaded. Write the fraction shaded.

2

Sketch a rectangle cut into 6 equal parts. Shade 4 of them. Write the fraction shaded.

3

Draw a number line from 0 to 1 cut into eighths. Mark and label three-eighths.

4

Compare: four-sevenths and six-sevenths. Use $<$, $>$, or $=$.

Unit 9 Summative Assessment (continued)

5

Compare: two-thirds and two-eighths. Sketch both strips. Use $<$, $>$, or $=$.

6

Atlas ate three-tenths of a cake. Cora ate seven-tenths of the same cake. Who ate more, and how much more?

7

Put these fractions in order from smallest to largest: one-half, one-fourth, one-eighth.

8

Hazel says "a bigger denominator always means a bigger fraction." Is Hazel right? Fix the mistake.

9

Reflection: pick one — would you rather have one-third of a pizza or one-fourth of the same pizza? Explain.
